Please Note

- If you've purchased the device from a carrier, it may require SIM unlock.
- You cannot download an eSIM without an internet connection.
- eSIM can only be installed once.
- Every Tuesday from 22:00 to every Wednesday at 09:00, eSIM downloads (setup) are not available due to maintenance time. (XJapan Time)
- After clicking the 'Issue Activation Code' button from the URL mentioned in the email, installation (download) must be completed within 48 hours.
- If you make a mistake in the setup and delete the eSIM, it cannot be reissued or canceled. Please note that even <u>if the 48-hour installation deadline expires, it</u> <u>cannot be reissued.</u>
- The start date will be the date of download.
- If you use up the capacity within the usage period, speed restrictions will apply. There is no way to undo this, so if necessary, please apply for a new eSIM.
- You won't be able to communicate after 24:00 on the end date.
- Please note that the explanations for the Android and iPhone versions below may vary depending on the version and model of your smartphone.

STEP1 : Generation of Activation Code

①Email Reception

After completing your application, you will receive an email with a URL for generating the activation code immediately. Open the URL provided in the email. *If you choose to pay at a convenience store, you will receive the email after payment confirmation.

STEP2: Download eSIM iPhone

%The displayed content may vary depending on the device model and version. eSIM can only be installed once. Please note that you cannot download the eSIM unless you are connected to the Internet.

STEP3: APN Settings iPhone

%The displayed content may vary depending on the device model and version. eSIM can only be installed once. Please note that eSIM cannot be downloaded outside of Wi-Fi environments.

(6)In the mobile data section, confirm that the added eSIM name is displayed and that other lines are turned off. The eSIM name will be automatically assigned according to iPhone specifications.

If the Wi-Fi is turned off and the antenna icon is displayed, the setup is complete.
